Travel and Expense Policy

Meridian Infra Ltd - Finance - Version 3.2

1. Principles

Business travel must have a clear purpose that cannot be met by a video call. Travellers are expected to spend company funds as carefully as their own and to choose the lowest reasonable fare.

All travel is booked through the corporate travel desk, which holds negotiated rates with airlines and hotels. Bookings made elsewhere are reimbursed only when the travel desk could not offer a comparable option.

2. Air and rail

Domestic flights are booked in economy class. International flights longer than eight hours may be booked in premium economy for grade M3 and above. Rail travel uses AC 2-tier or the equivalent.

Flights must be booked at least seven days ahead where possible. Changes caused by personal plans are paid by the traveller.

3. Hotels

Hotel limits per night, including taxes: metro cities INR 7,500; other cities INR 5,000; international travel USD 180. Stays above these limits need the approval of the department head before booking.

4. Daily allowance

A daily allowance covers meals and local incidentals: INR 1,200 per day in metro cities and INR 900 elsewhere. When meals are provided by a client or event, the allowance is reduced by half.

5. Submitting claims

Expense claims are submitted in the finance portal within 30 days of returning. Every item above INR 500 needs an itemised receipt or invoice. Claims older than 90 days are not reimbursed.

Approved claims are paid with the next salary run if approved by the 20th of the month, otherwise in the following month. Advances for long assignments can be requested from Finance and are settled against the final claim.

6. Non-reimbursable items

The company does not pay for alcohol, traffic fines, personal entertainment, minibar items, loss of personal belongings, or upgrades chosen for personal comfort.
